Uncovering soul through loving eyes

We love pets, we love photography and the joining of our two passions gave birth to Studio Noah. We travel far and wide to meet people like you, who love their pets and wish to honour that bond with beautiful photography.

With a flexible style for all personalities, gentle when needed and full of fun otherwise, the images beautifully reflect your pets love of life and love for you. Each photo shoot is as special as each pet, and the results will take your breath away.

The photographic session goes between 1-2 hours, and is held at either an outdoor location or at your home. The location can dictate how your pets feel about expressing themselves and their ridiculous antics. That is why we suggest choosing a location where you and your pet have fun together.

Yes we do travel far and wide. If you are far from Perth, please contact us for travel information.

Lessons in Love

Unconditional love, being true and living in the now are just some of the qualities that spring to mind when we think of our pets. Often overlooked within the essence of our relationship is the fact they are a mirror. When we see beauty and love, we can also be sure we have it within ourselves, and vice versa. What makes this relationship so beautiful is that when we help our pets with their issues, we are also helping ourselves. Photography that consciously focuses on this connection gives us the opportunity to look through the images to our own soul.
